

January 2020

**ALL BODIES ARE  
Beautiful  
& DESERVING  
OF CELEBRATION AND  
pleasure**

## OUR STORY

In 2007, two individuals with a blazing entrepreneurial spirit and desire to bring more pleasure into the world came together to forge Blush.

Verna Meng has spent the last decade building two manufacturing facilities, global distribution channels, a dedicated Research & Development center, and offices in New York, Los Angeles, Dongguan, and Hunan. Meanwhile Eric Lee drives product development and design. His visionary focus is set clearly on making Blush not just a design centric company, but a tech company as well.

Today Blush is one of the fastest growing pleasure product brands in the world, with 1200 products in our collection, and sales spanning North America, South America, Europe, Australia, and Asia.

## BLUSH DESIGN:

Your desires inspire us. From rumbling vibrations that bring deep pleasure to sexual wellness tools that bring healing, you are our priority.

## BLUSH WELLNESS:

We care about consumer health and wellness. Blush products are body safe and independently lab tested to ensure each item meets or exceeds international safety standards.

## BLUSH EDUCATES:

We understand that selling sexuality products is complex. Blush University offers free specialized, online and in-person training on product, pleasure anatomy, customer care, and business building for retailers and their staff.

## BLUSH GIVES:

Blush sponsors organizations and events that share our mission of education and empowerment around sexual health and pleasure. Past campaigns have benefitted Woodhull's Sexual Freedom Summit, The Ali Forney Center, the Sexual Health Expo, and OneTreePlanted.org.

## BLUSH PROTECTS:

We share in the responsibility to protect the beauty of our planet. Blush has led the way in truly sustainable sex toys with our Gaia® collection; made of recyclable, biodegradable plant-based plastic. Gaia® uses fewer greenhouse gases in production and has the lightest end-of-life impact on the environment.

Through the Blush Go Green initiative, we guide our company and employees to develop environmentally conscientious practices by giving financial incentives to all employees who drive sustainable cars and install solar panels for their homes.
